

EVERETT IS LOOKING FOR GOVERNANCE, RISK MANAGEMENT AND COMPLIANCE CONSULTANTS.

Everett is looking for consultants in one of the fastest growing Business/ICT areas:

“Governance Risk management and Compliance” (GRC).

Everett offers career opportunities for both experienced consultants and young professionals/trainees.

Trainees will receive an in-depth training program to become experts in these fields through the “Everett Academy” program.

Everett GRC specialists will ultimately participate in projects both in the Netherlands and abroad, mainly in top-100 companies and institutes.

If this appeals to you continue to read below.

Who are we?

Everett is a young and fast-growing company that was founded in 1999 and has locations in The Netherlands, UK and India, and currently has approximately 70 employees.

As a Systems Integrator, Everett is primarily specialized in the fast growing areas of Identity and Access Management (IAM), Governance, Risk management and Compliance (GRC) and Service Oriented Architectures (SOA). Projects in these areas always have a mission-critical character and are at the core of our clients’ business and IT infrastructure.

Identity and Access Management projects are part of corporate information, security or information-access environments and include the creation and management of identities. In addition Everett is a specialist in Governance, Risk management and Compliance (GRC) issues. Everett GRC consultants assist organizations to align these risks, rules and regulations with IAM projects.

Everett is now the Dutch market leader in the IAM area and fast-growing in GRC activities. Everett delivers complete projects in the Netherlands and abroad. Our activities include the whole spectrum from consulting, architecture and design to implementation, production and aftercare.

Our culture can be described as informal, pleasant with an international atmosphere, professional, high quality and very focused on personal development. Everett’s goal is always to work with the latest (Internet) ideas and technologies in our projects.

Why work @Everett?

- **Innovative Technology**
Everett is an early adopter of market leading integration technologies
- **Challenging Projects**
Everett operates with experienced project teams in challenging projects
- **Reputed Clients**
Everett is present in high profile customer environments
- **International Presence**
Everett projects are fulfilled throughout Europe and the Middle East.
- **Passionate People**
Everett employees are highly professional, ambitious and focused on personal development

"Boosting your talent"

What do we require?

Candidates will need the following education and skills:

- University or technical high school degree (preferably a beta study or ICT-economics).
- Affinity with (complex) corporate compliance processes and risk management
- Knowledge/affinity with general regulations and standards such as Sarbanes-Oxley, Basel II and the Code Tabaksblatt.
- Experience with various security standards and frameworks and/or CISSP certified.
- Knowledge of security solutions (risk analysis-, auditing-, and monitoring tools).
- Experience with identity and access management (IAM) solutions.
- Business consulting skills.
- (Limited) ICT/programming experience.
- Eager to learn.
- Conceptual/analytical mind.
- Good communication skills (Dutch and English).
- A pleasant colleague.
- For trainees/young professionals: participation in the Everett Academy Program.
